

SOAK UP THE WEATHER

The Patiola

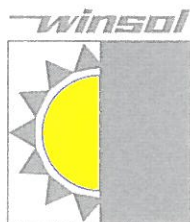

...a retractable
room for *all weathers!*

Your
Solution!

2006 will see the introduction of a UK wide smoking ban in all public places. Tests in the Irish market have proven that pubs and restaurants that have provided external sheltered smoking rooms have seen an increase in sales of both food and drink.

WINSOL

The Patiola...

...a room outdoors!

GENERAL

The Winsol Patiola provides a covered area that is essentially weather proof and can be opened and closed at the touch of a button. It is ideal for patio areas, gardens and restaurant extensions, giving you an extra room out doors!

In the summer, it provides open "alfresco" ambience whilst in the winter when fully enclosed and heated it provides a garden party atmosphere. It is virtually maintenance free and could be just what you are looking for to provide something just a little bit different for your clients.

The Patiola's unequalled design means each module can reach a maximum size of 5m wide with projections up to 6m. Modules can be linked endlessly to cover any size patio or garden area. When placed back-to-back just two units can protect an amazing 60 m² from sun or rain.

OPERATION & OPTION

Standard Electric Operation:

World renowned Somfy tubular motor and switch with optional CMTI fabric tensioning system.

Options:

Add heating and integrated lighting bars to create a warm cosy room where guests or clients will be happy to linger all year round.

TECHNICAL SPECIFICATION

- Large 6 metre extensions, modules can also be fitted back-to-back to increase area coverage.
- Widths can be increased to any size by connecting modules in series.
- Each module can be individually controlled for complete site flexibility.
- The combination of the integrated motor and twin spring tension system ensures continuous fabric tension when extending or retracting.
- The integrated guttering system covers the gaps between the fabric and frame and diverts rain water from the roof to down pipes attached to each upright guide.
- Choose from 33 specially treated water resistant fabric colour-ways.
- Powder coated white or brown frame as standard or select a colour of your choice from the RAL colour chart.
- Optional remote operation with simple out of sight control.

Technical specification may vary without notice.
